Hon. G. Burton Thempson's Report. The report of this gentleman, as chaiaman of the Select Committee on that part of the Governor's mes- Vera Cruz. sage relating to the tariff, is a curious affair. It is made up of round assertions, deceptive data, and allusions to politics in general. The only argument in the report, is an attempt to infer that the decrease from the protective duties imposed on articles of the years or during the war with Mexico. greatly increased the price of many protected articles. and that a diminished currency decreased their price, all without regard to the rate of protection; and the further fact, that a general reduction in the market value of manufactured goods, has been produced by the vast improvements in machinery. He says wages have in some instances been increased, but forgets to mention that men have to a great extent taken the place of girls in the factories, and that the number of 29th of November. Two regiments of Indiana volnow less by one half than it was ten years ago, Gen. Worth, blind does he seem to the fact, that the increased facilities for transportation, both by land and water, have, by diminishing freights and charges, lessened consequence enhance their cost to the consumer.
